## **CURRICULUM:**

### **READING USING PHONICS**

We use Phonics to introduce Alphabet Sounds. New research has shown that Phonics has a dramatic impact on the accuracy of reading aloud and comprehension.

### **HANDWRITING WITHOUT TEARS**

American based Handwriting Without Tears (HWT) Syllabus is utilized to build writing and language art strategies. Teaching letters in a developmental order helps children master their skills. We teach capitals first, and then lowercase letters. All letters are taught in small groups of similar formation. Children master the easier letter groups, and then move to the more complex letters groups.

### **MONTESSORI MATH**

The Montessori Math curriculum is one of the best examples of the unique beauty of Montessori. Montessori Math teaches practical life activities and sensorial activities which give indirect preparations for math and prepare the child for later learning. It uses concrete materials to introduce abstract concepts and gives a sequential understanding of Mathematical Concepts.

At Kings International Preschool, we have used the Howard Gardner's **THEORY OF MULTIPLE INTELLIGENCES** for developing an individualized curriculum best suited for each child. Every great Curriculum Needs to Accommodate Different Learning Styles namely the

- **Physical or Tactile learner**
- **Visual learner**
- **Auditory learner**

At Kings, each child's individuality is used for their advantage in the way they learn, grow, build self-esteem and develop their imagination.
